RIS-Internship project

EIT RawMaterials project connecting students and industry, creating opportunities for both!

Co-funded by the
European Union

What is RIS Internship?

Co-funded by the
European Union

- **Sustainable and structured Internship Programme** for Eastern European and Southeastern European students (RIS region) enrolled in Master studies
- **Project duration:** 2022 -2024
- improve professional opportunities for the students of raw materials sector
- familiarize the future young professionals with work environment and real-life challenges
- connect industry and universities

Based on the successful ADRIA Internship programme (2019-2021):

- 70 individual internships in more than 43 different organisations (total duration of 113 months)

Partners of the project

RIS Internship Consortium gathers nine partnering institutions, seven of which are registered in RIS countries:

- University of Zagreb - Faculty of Mining, Geology and Petroleum Engineering (UNIZG-RGNF) - project coordinator
- National Technical University of Athens (NTUA)
- Technical University of Kosice (TUKE)
- Tallinn University of Technology (TalTech)
- Technische Universität Bergakademie Freiberg (TUBAF)
- University of Liège (ULiege)
- University of Miskolc (UM)
- Wrocław University of Science and Technology (WUST)
- Slovenian National Building and Civil Engineering Institute (ZAG).

Legend:

- RIS eligible countries
- EIT labelled Master programmes
- RIS HUBs involved through Consortium Partners

RIS countries

In the programme, we also accept students enrolled in EIT RM labelled Master programmes:

- ✓ **EMerald** (Liège – Nancy – Luleå – Freiberg)
- ✓ **SINReM** (Uppsala – **Freiberg** – Ghent)
- ✓ **AMIR** (Bordeaux – Lisbon – Darmstadt – Liège – Madrid – **Miskolc**)

+ Albania, Bosnia and Herzegovina

Targets

Co-funded by the
European Union

The following will be done during the next three years (2022 -2024) of project implementation:

- **367 students** will conduct an internship in **300 companies**
- **21 matchmaking events** for students and hosting organisations will be organised
- **637 individuals** (students and industrial supervisors) will be trained via professional online webinars
- **25 students (interns)** will be employed by **their internship company.**

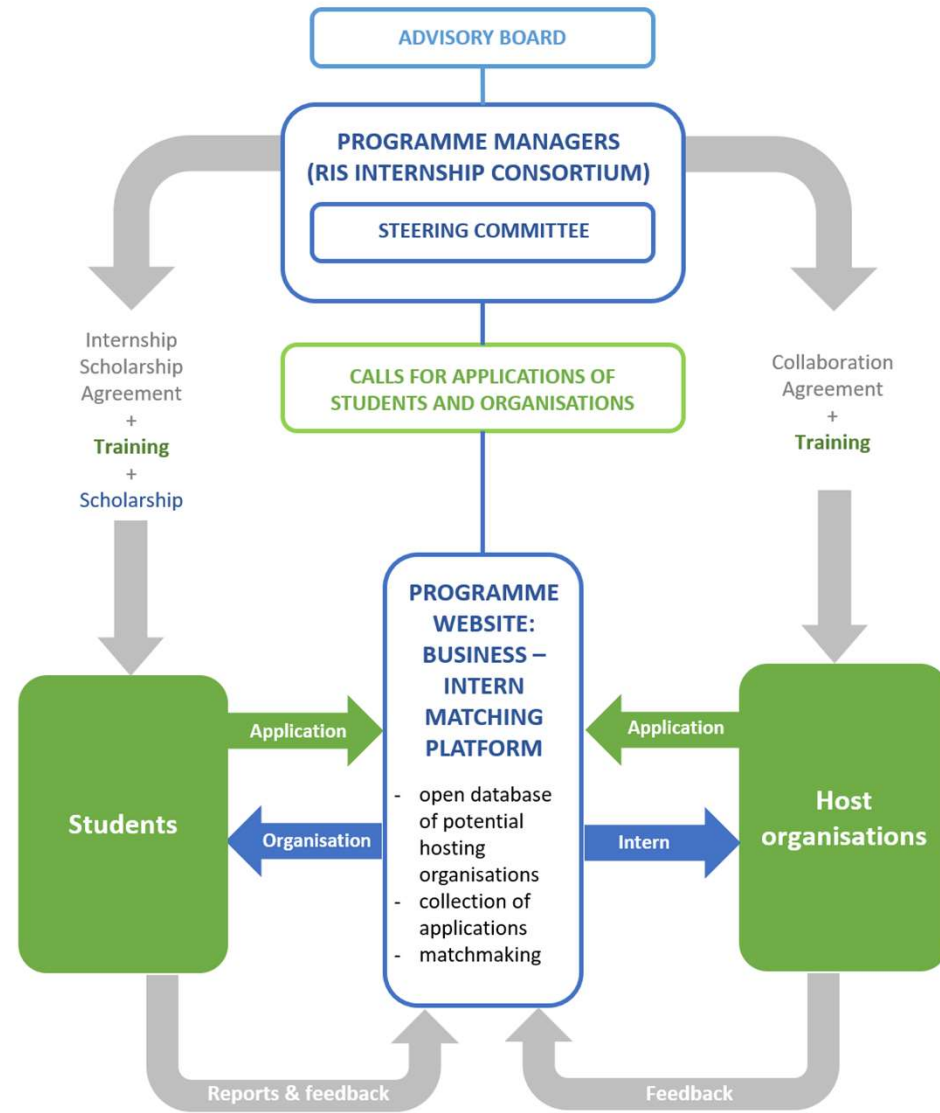

Welcome!

Co-funded by the European Union

Structure

Welcome!

Co-funded by the
European Union

Programme implementation

Organisations apply via an online application form available on the website:
<https://www.ris-internship.eu/apply-now>.

Applied and approved organisations will enter the open database *Pool of organisations*, providing all relevant information online, for the potential interns to explore.

Students will read the details of companies and internship opportunities and submit their application for their selected host organisations.

Matchmaking of the students and organisations will be made by the RIS Internship Consortium, following an agreed procedure.

Welcome!

Co-funded by the
European Union

Before the
internship...

Selected organisations / students sign collaboration agreement / internship scholarship agreement with UNIZG-RGNF.

Selected organisations and students go through short online training for supervisors / interns (webinar) and pass competency assessment up to 5 days before starting the internship.

Internship can begin!

Calls	Launching of the Call	Duration of the Call
Call for organisations	28/02/2022	until 31st October 2024 (organisation applies only once, updates information each year)
Call for students 2022	01/06/2022	until 31st October 2022
Call for students 2023	31/01/2023	until 31st October 2023
Call for students 2024	31/01/2024	until 31st October 2024

Welcome!

Eligibility criteria for students

1. Student should have a **bachelor's degree*** from a relevant scientific field: **mining, geo-sciences and geotechnology, materials science, extractive waste management, metallurgy and recycling.**
 2. Student must be **enrolled in the master's study programme*** of the relevant scientific field (**must not have graduated** during the internship).
 3. The university at which the student will acquire his master's degree needs to be located within one of the **RIS countries covered by the Programme** (Bulgaria, Croatia, Czech Republic, Estonia, Greece, Hungary, Italy, Latvia, Lithuania, Montenegro, North Macedonia, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Ukraine), or a student is **enrolled in one of the following EIT labeled MS programmes: EMerald, AMIR, SINReM.**
 4. Within the bachelor's study programme, the applicant should have had obtained a **minimum average grade (GPA)** required by the RIS Internship Programme. Minimal required GPA is defined in relative terms and is **60% of the maximum possible GPA that a student could achieve** during a bachelor's study programme completed.
 5. Student should guarantee a minimum **B2 English language proficiency** level.
 6. Interest and motivation of the student to contribute to the raw materials sector.
- **Students of joint BSc MSc programs can be accepted after having finished the 3-rd year of study**

INTERNSHIP

Welcome!

What do students need to apply?

- Scan of your bachelor's degree
- Scan of an official confirmation of your enrolment in the Master study programme
- Scan of an official Grade Point Average (GPA) calculation
- Scan of written and signed recommendation of a university professor (only in case your GPA is below threshold)
 - CV in any form
- Scan of your passport (non-EU citizens) or ID (EU citizens)
 - Motivation letter.

We strongly recommend submitting the documents in English to fasten the evaluation process, however if not possible, you may enclose the documents in the official language of the institution. All other information provided in the application form, further communication with the Project administration, contracting and reporting need to be carried out in English.

Welcome!

Scholarships

Internship location	Maximum monthly scholarship (in EUR)
Internship implemented in the place of study or in the place of permanent residence	200,00
Internship implemented in the radius up to 50 km outside the settlement where the intern studies or up to 50 km from the place of permanent residence	300,00
Internship implemented in the radius larger than 50 km outside the settlement where the intern studies or more than 50 km from the place of permanent residence	400,00
Internship implemented in the location outside the country of the intern's study or the country of permanent residence*	600,00
Internship carried out online**	150,00

*Students enrolled in EIT RM labelled programme AMIR, EMerald and SINReM selected for internship in a RIS country will only receive transportation costs, due to EU policy on double funding.

** Only in very specific cases, in justified circumstances and under explicit confirmation of UNIZG-RGNF.

Welcome!

Co-funded by the
European Union

Remember...

Once you are accepted by the company, you have to...

- complete the short training/webinar for interns and pass the competency assessment
- sign the Internship agreement with UNIZG-RGNF
- conduct the internship by respecting all the rules and agreements with your hosting organization
- submit evaluation survey at the end of your internship.

You have the right to terminate your participation in the RIS Internship Programme (withdraw application) only **before** the signing of the Internship Scholarship Agreement.

RIS- Internship programme

Opportunities for students

Co-funded by the
European Union

Looking for an internship opportunity to improve your professional skills and enhance employment capacity?

How to get involved
as a student?

Apply to the call for students
on the webpage:

<https://www.ris-internship.eu/>

Structured internship programme; with coverage of internship fees (up to 600 €)

Pool of best host organisations from RIS region - offering 1-3 months internships

Skills & Capacity building; structured programme for enhancement of professional skills through tackling real challenges

Matchmaking platform for students to connect with a wide range of potential future employers
